

## **Hello Ninja,**

It has been an amazing journey and Coding Ninjas really appreciate all the efforts you have always put in, being the Campus Ninja of your esteemed College.

We hope to continue our combined efforts to spread awareness about the importance of Coding. Coding is the most important skill and helps students grab their Dream jobs all over the world. It is the only universal skill which is needed uniformly across all companies and thus provides the best exposure in the Industry.

Coding Ninjas has always focused on helping students understand the value of technical knowledge and you have always come up with various ideas and initiatives which helped the whole student community as a whole.

Keep the good work up!  
Good luck for your upcoming sessionals and  
Wish you and your family a very Happy Diwali

#Coding #skillforlife
