HAC - Hack Against Covid

Dear Saksham Taneja,

Greetings from Codezoned!

Congratulations! You have been selected as a speaker and mentor for our upcoming event HAC - Hack Against Covid that will be held on 7 - 9 August, 2020.

After a careful review of your profile, we would be more than pleased to have you as one of our speakers. We are counting on you to provide the participants with some valuable insights and help us make this event a successful one.

We kindly request you to join our HAC discord servers (http://discord.codezoned.com/). All communication between the staff, participants and the panelists will be carried out there.

In order to make sure your talk is as good as it can possibly be, you will be required to send in your draft a week prior to the event. Look out for an email with the details soon.

In the meantime, we encourage you to spread the word about HAC (https://hac.codezoned.com) to your connections!

If you have any questions, feel free to contact the team: team@codezoned.com

Thank you for your interest in Hack Against Covid! Looking forward to having you on the HAC panel.

Best Regards,

Sagar Vakkala
